

EPGM1

Hardwired zone & programmable output expansion

What is it?

EPGM1 is a hardwired zone and PGM output expansion module intended for using with ELDES [alarm systems](#).

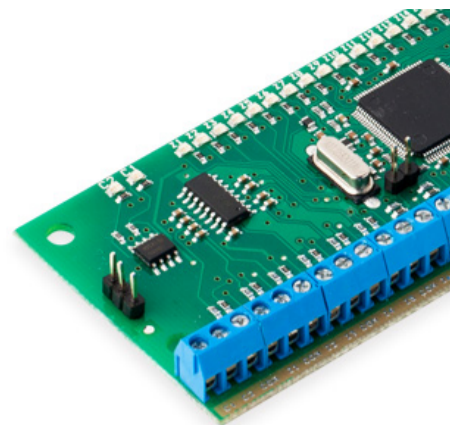

What it does?

The 16 Zone Expansion Module EPGM1 adds 16 hardwired zones, 2 Programmable outputs 500mA (PGM) and provides 500mA @ 12VDC auxiliary current.

[ESIM264](#) system supports 1 [EPGM1](#) module, while [ESIM364](#) - 2 [EPGM1](#) modules.

Specifications

Hardwired zones	16
Supply voltage	10-24V
PGM outputs	2×250mA
Operating temperature	-20...+55°C
Dimensions	118×47mm
