

# EPGM8

Hardwired programmable output expansion

8 programmable outputs 500mA

Compatible with ESIM264/364 panel

## What is it?

EPGM1 is a PGM output expansion module intended for using with ELDES alarm systems. Module is used to expand the quantity of outputs in Eldes alarm and Control systems [ESIM264](#), [ESIM364](#).

This module allows to connect up to additional 8 electrical appliances.

## Specifications

Supply voltage	10-24V
PGM outputs	8
Operating temperature	-20...+55°C
Dimensions	40×55×15mm
